# FAQ

1. Where is this halal certificate sourced from?

Ans) It has been provided to us directly from our supplier in the United States (USA)

2. Why have certain elements been blocked out?

Ans) We've invested significant time and resources in identifying the most reliable suppliers for our products. While we're committed to transparency, certain information, like the specific manufacturer's name and address, is considered proprietary and is protected in the best interest of our business. However, we're more than willing to share the complete, unredacted document with you if you reach out to us at [sales@paknaturals.pk](mailto:sales@paknaturals.pk).

3. There are other products listed as well. What's that about?

Ans) This Halal certificate isn't only for whey products, but for all other dairy products made by the manufacturer as well.

4. Why isn't PakNaturals Hyper Whey mentioned anywhere in this?

Ans) PakNaturals Hyper Whey is essentially pure WPC (Whey Protein Concentrate 80) with no additional additives. In essence, it's sourced as a raw material rather than a finished product, and it undergoes local packaging. Within this list, you can find Hyper Whey listed under the product name 'Instant Whey Protein Concentrate 80 Non-GMO,' at the 11th position.
